

Sub B1
rotating horizontally the workpiece on the conveyor selectively either to the right or left side in the direction of travel of a carrier to treat each workpiece in accordance with the treating condition.

13. (Amended) A conveyance apparatus according to claim 7, and further including painting sections for applying different colors at both the left and right sides of a single conveyor, and a workpiece which is guided and moved by said conveyor is allowed to rotate horizontally either to the right or left side and is painted with a required color in any one of said painting sections.

15. (Amended) A conveyance method according to claim 12, including the following steps of:

moving the workpiece to painting sections;
stopping the carrier above painting sections for applying different colors at both the left and right sides of a single conveyor; and
rotating the conveyor either to the right or the left side to paint the workpiece with a required color in any one of the painting sections.--

Sub B2
Applicants hereby elect Group I consisting of claims 1-5 for initial examination in this application. This election is with traverse.
